Con't  
Cont'd

member is attempted to be inserted into a said passage, the at least two directional changes substantially hindering the ability of a person to thread the suspension member through a said passage, and each said passage having a substantially uniform transverse cross sectional area along its length.

6. The grille as defined in claim 5, wherein the substantially uniform cross sectional area is circular.

4x. The grille as defined in claim 5<sup>3</sup>, wherein the substantially uniform cross sectional area is elliptical.

5x. The grille as defined in claim 5<sup>3</sup>, wherein the substantially uniform cross sectional area is in the shape of an elongated slot.

#### REMARKS

Amended claims 1 and 4 and newly entered claims 5-8 are pending in this file wrapper continuation application.

The Applicant believes that original claims 1 and 4, as previously amended in the Notice of Allowance, are still allowable in view of that Notice issued in the parent application. New claims 5-8 are believed to recite the true scope of the present invention and are considered allowable in view of the art of record.

In view of the foregoing, it is respectfully submitted that this application is now placed in a condition for allowance. Action to that end, in the form of an early Notice of Allowance, is courteously solicited by the Applicant at this time.

In the event there are any fee deficiencies or additional

fees are payable, please charge them (or credit any overpayment)  
to our Deposit Account No. 04-0213.

Respectfully submitted,

*Michael J. Bujold*
